CAREER OBJECTIVE

Entry-level UI/UX design enthusiast seeking an internship to translate user needs into intuitive interfaces while continuously improving design skills through real product challenges and mentorship.

QUALIFICATION

- B.Tech in Computer Science Engineering – RTMNU (Pursuing)
- HSC - Maharashtra Board (2022) - 73.17%
- SSC – Maharashtra Board (2020) - 63.80%

INTERNSHIP EXPERIENCE

Figma Designer Intern

Incrivelsoft USA | 3 Months

- Worked as a Figma Designer, contributing to UI/UX design projects for the company.
- Created wireframes, high-fidelity prototypes, and reusable design components in Figma.
- Collaborated with the team to deliver user-centered design solutions.
- Gained hands-on experience in professional design workflows and remote collaboration.

CERTIFICATION

UI/UX Design Certification – Tutedude | Completed 2026

[View Credential](#)

UI/UX SKILLS

- Wireframing & Low-Fidelity Mockups
- High-Fidelity Prototyping
- User Research Basics
- User Flows & Information Architecture
- Usability Testing (Beginner)
- Design Thinking

TOOLS

- Figma (Wireframes, Prototypes, Components)
- Canva

SOFT SKILLS

- Communication & Collaboration
- Feedback Adaptation
- Problem Solving
- Willingness to Learn

PROJECTS

Project 1 – DRY N WET (10+ High-Fidelity Screens | April 2026)

- Created low-fidelity wireframes based on user needs and problem statements
- Defined user flow and basic information architecture
- Applied design thinking principles to structure layouts
- Created high-fidelity screens

Project 2 – KAAM SATHI (Ongoing | 12+ Screens Designed | February 2026 – March 2026)

- Conducting user research and requirement analysis
- Designing wireframes and early prototypes
- Building user personas and journey maps
- Working toward high-fidelity UI
- Iterating designs based on feedback
